PREFATORY NOTE

THIS seventy-fourth yearly issue of the English Catalogue of Books comprises the titles (under authors, and subjects or titles) of works published during 1910 and also of some received too late for inclusion in the seventy-third issue.

The main entry of each book begins with the author's surname (if known) in **heavy type**. As an index to these "Author" records, entries are also made under the titles, commencing with its most important word (which usually indicates the *subject* dealt with by each book), or with the first word; the name or word under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the full information about a book may be found. Main entries and index entries are in one alphabet.

Writers with compound names are entered under the last part of the name, *e.g.* :—

Gould (Sabine Baring-)

and accordingly must be looked for in that order.

The publications of Learned Societies are recorded in an Appendix.

The names and addresses of the Publishers of Great Britain and Ireland will be found at the end of the volume, followed by those of the principal Publishers in the United States and Canada. The telegraphic and cable addresses and telephone numbers have been added when known.

Following the Preface is an analysis of the books of the year 1910, showing in detail the number of works in each class of literature and giving the proportions of new books and new editions.

Hearty thanks are due to many publishers, secretaries, librarians, authors, and bibliographers who have assisted in making this book more correct and comprehensive than it otherwise would have been.

The Editor will be glad to have particulars (author, title, price, publisher, and month of publication) of any work which may have been omitted. Information as to each book should be given on a *separate* slip of paper or postcard. It should be addressed to—

Analysis of Books Published in 1910

The number of books recorded as published during the year is 10,804. This is an increase of 79 as compared with the figures for 1909. This is gratifying in view of the events of the year. The lamented death of Edward VII, and the occurrence of two General Elections, would have been sufficient reason for a substantially decreased output; so that the increase, small though it be, is highly satisfactory.

The totals for the last few years are striking evidence of the continued growth of British publishing:—

Year.	*New books.*	*New editions.*	*Total.*
1900	5,760	1,389	7,149
1901	4,955	1,089	6,044
1902	5,839	1,542	7,381
1903	6,699	1,682	8,381
1904	6,456	1,878	8,334
1905	6,817	1,435	8,252
1906	6,985	1,618	8,603
1907	7,701	2,213	9,914
1908	7,512	2,309	9,821
1909	8,446	2,279	10,725
1910	**8,468**	**2,336**	**10,804**

Taking this year's output, and comparing it class by class with last year's, there are the following *increases*:—Religion and Philosophy, 42; Educational, 30; Law, 5; Social Science, 64; Arts and Sciences, 53; Voyages and Travels, 71; Poetry and Drama, 115; Medicine, 51; while the following classes show *decreases*:—Fiction, 48; History and Biography, 53; Year Books, &c., 29; Belles Lettres, 32; and Miscellaneous (Pamphlets, &c.), 190. The effect of the events noted above is noticeable in the monthly totals, January, May and December all being behind last year's figures. The first two were made up for by increases immediately after, but the loss in the December total could not of necessity be recovered in the year under review.

The Analytical Table appended supplies further fully detailed information. It may be noted that this is the last time this particular form of table will be used. Commencing with 1911, the statistics of book production will be tabulated according to a scheme adopted by the International Congress of Librarians at Brussels in August, 1910. Efforts are being made to induce other countries to use the same system. The new table is more detailed and exact in its information and arrangement, and will form a useful basis for comparative statements of the book production of the world.

DIRECTORY OF PUBLISHERS

Publishers are invited to send us their Telegraphic Addresses and Telephone Numbers. Those sent will be found below between square brackets [ ], and separated from each other by a semicolon (;) The Editor will be glad to be notified of any inaccuracy in the following lists for correction in subsequent volumes

This list of Publishers, with their Addresses, has been compiled principally with a view to supplying information regarding the books in the 1910 English Catalogue. This will explain the inclusion of some firms in the list who can scarcely, in the strict acceptation of the term, be called Publishers, since the publication of books forms only an occasional portion of their business.

THE Proprietors of the well-known ENGLISH CATALOGUE OF BOOKS, which covers the period 1836-1910, are contemplating the issue, in the Spring of 1912, of a volume covering the years

1801-1836

This proposed new volume will be edited and compiled by

ROBERT ALEXANDER PEDDIE

Acting Librarian of The St. Bride Foundation Technical Library, Author of "Printing in Brescia in the 15th Century": "Conspectus Incunabulorum," &c.

AND

QUINTIN WADDINGTON

THE Published volumes of the ENGLISH CATALOGUE OF BOOKS are, as *The Athenæum* said, "indispensable," but they do not go back beyond the year 1836. Librarians, bibliographers and booksellers have always found the English books covering the earlier part of the Nineteenth Century, 1801—1836, the most difficult to trace, the trade catalogues for that period being very incomplete as regards the total number of entries and insufficient as regards the individual entry.

It is now proposed to compile from the weekly and other trade lists and other sources a volume of the ENGLISH CATALOGUE, covering the period in question on modern lines —the author, title and subject entries in one alphabet—and supplying as far as possible all the information which is wanting in the "London" and "British" Catalogues.

This proposed volume will complete the set of the ENGLISH CATALOGUE from the beginning of the Nineteenth Century.

The volume, which will be issued uniformly with the other volumes of the series, in half leather, will probably contain about 800 pages, and will be supplied to subscribers whose orders are received before May 31st, 1911, at the price of £3 3s. net.

After this date the price will be raised to £4 4s. net.

Although work on it has begun, the production being very costly, its issue—which it is hoped will be in the Spring of 1912—must depend on the number of copies subscribed for by May 31st, 1911.

MANY INFLUENTIAL LIBRARIANS AND OTHERS HAVE ALREADY EXPRESSED THEIR INTEREST IN THIS PROPOSED VOLUME AND :: :: :: :: HAVE ORDERED COPIES. :: :: :: ::
